

NEVER BELOW ZERO

GROUP EXHIBITION 14-24 DECEMBER 2018
OPENING: FRIDAY 14 DECEMBER 8.00-11.00 PM
SNEHTA- DROSOPOULOU 47, KIPSELI
15-24 DECEMBER: 4.00-9.00 PM

Never Below Zero, is a group exhibition of thirty-five Greek and international artists. The exhibition takes place at Snehta just before the celebration of Christmas in Greece, during the winter time that temperature never gets below zero!

Well known, established artists who get inspired from the contemporary cityscape and the old urban neighbourhoods around it, present their work in an exhibition that takes the shape of a collective project.

Snehta Residency becomes for ten days a contemporary salon. Works exhibited include paintings, collage, sculptures, constructions, micro sculptures and artistic objects.

The exhibition Never Below Zero is a visual happening during which the works of established artists will be available for the first time and only for a few days at a surprising price!

The exhibition supports Snehta's main residencies programme – running since 2012 - as well as its new educational programme "SCULPTURE SCHOOL", commencing in January 2019.

Together with the exhibition, Snehta will be launching an original patent: A unique ink for artists! Based on a traditional recipe with pure ingredients created from Snehta's chemist!
